HYDROFLEUR™
BRI 279 | CAS 62439-42-3

Hydrofleur is the latest aroma ingredient offered by Bedoukian Research. Strong and diffusive, it provides dewy white petal notes of muguet and tuberose combined with fruity shades of raspberry and melon. Hydrofleur is made from sustainable raw material origin using first-of-kind manufacturing technology that adheres to the 12 Principles of Green Chemistry. The result is a 100% renewable, multi-faceted aroma ingredient that meets Clean Beauty and Clean Fragrance standards.
