

Source Certification – Sustainable Products

BRI # 857-SUS LAVENDER ALDEHYDE

This statement is to certify that the above products are part of Bedoukian Research, Inc's Sustainable Products Portfolio.

Our Lavender Aldehyde is manufactured from a mix of natural and synthetic materials and contains 99+% renewable carbon.

The source of the natural raw material within this supply chain is understood to be *Cassava root*.

As part of our commitment to our Sustainable Products Portfolio, our suppliers will notify us in writing and in advance, if they change sources of natural raw materials. We have also performed natural testing on the final product to confirm the renewable carbon percentage.

We are excited to expand our portfolio to provide this product.

If additional information is needed, please let us know.

Respectfully Submitted,

Marie Maher
Director of Quality & Regulatory Compliance
